Gentlemen:-

We hereby agree to furnish, deliver and set complete,

three (3) cabinets with drawers of pine, to correspond in style and workmanship with the existing ones at the building, finished with one (1) coat of shellac, and drawers fitted with 2 tray knobs to each, for the sum of \$ 68.50 complete.

The above mentioned drawers consist of 34 in number for the 1 case, and about 14 in number for the other two (2) cabinets. All with the exception of the bottom drawers will be 1" high on the outside, depth and width to correspond with the dimensions of the cabinets. The bottom drawers will be made somewhat higher. Each drawer is to slide on the same style as the existing drawers now at the building and already installed.

The aforementioned estimate does not include any lining which may be required for the bottom of the drawers.

Trusting to receive your order for the above named work, and thanking you in advance for same, we beg to remain,

Very truly yours,

B. Engesser Company.

Messrs. E. Engesser Company,

New York.

Dear Sirs:-

Your letter of April 5th estimating the cost of the three cabinets at \$68.50 complete has been received. I note that you state that the drawers in the three cabinets are to be one inch high on the outside. This is all right for the cabinet of thirty four drawers, but of the two smaller cabinets the outside measure is about one and three eighth inches, the inside measure one inch. I presume this is a clerical error in making out the estimate, as Mr. Engesser took these measurements very carefully.

You can go ahead on this work immediately. I will be glad, however, if you will send me up another estimate dividing the cost so that I will know the cost of the inside cabinet and of the two outside cabinets.

Very truly yours,

Director.

Miss Lucy Jeston Hampton,
State Normal,
Edmond, Oklahoma.

My dear Miss Hampton:-

On your recent visit to this Society you inquired about our exhibition cases, the structure, measurements and cost. I communicated with the firm who does our cabinet work, and found that the cases were made in 1912, consequently it has taken them some time to dig up the plans, and make a sketch accordingly. I enclose herewith a sketch and estimate, which was sent to me, for your perusal. As you know in the last three or four years, particularly in this state, labor and material have advanced almost 75%. Our cases cost without table or legs approximately eighty dollars.

Trusting that this information will give you all the desired data for construction, I beg to remain,

Yours very truly,
